Do You Wear a
Stetson?

LEONARD FERNE, clothier.
MAIN STREET BOW ISLAND

How About Your Spring
Tires?

CALL AROUND AND
SEE US.

We have a few FOSS-
TON and SUPERIOR
FANNING MILLS at
reasonable prices.

Also a few "E-Z" Grain
Picklers. Get them be-
fore the spring drive.

Wilmot & Henderson
BOW ISLAND

Farmers! Attention

Our price for a 20-Marker Double
Disc Drill is **\$215.00.**

Other sizes and styles in proportion.

The 10-20 Titan tractor is now sell-
ing at **\$1310.00**

If you are interested in a Tractor for spring use, it
will pay you big to order at once.

We have a few FANNING MILLS in two sizes.
Prices on these are right.

S. G. JAMIESON, Bow Island.

TOWN OF BOW ISLAND AUCTION SALE OF TOWN LANDS.

NOTICE IS HEREBY GIVEN that the unclaimed lands, which have been held by the Town of Bow Island under the provisions of The Town Act, will be offered for sale on Saturday, March 23, 1918, at the Town Hall of the said Town on Bow Island, Alberta, at 2 P.M. A.D., 1918, at the hour and place indicated in the afternoon.

The lands will be sold subject to the highest price having been obtained, and the Town reserves the right to withhold any of said lands from such sale.

ENORMOUS INCREASE IN VALUE OF FIELD CROPS OF THE DOMINION

CANADA'S GREAT AGRICULTURAL POSSIBILITIES

While the Aggregate Marketable Value of the Grain Crops has Enormously Increased During the War Period, the Production Increase is Unfortunately but Fractional in Comparison

It is to be hoped that Nature will be kind with favor upon the organization efforts of the Canadian agriculture, under the leadership of the Hon. A. C. Carter, in making the crops of Canada during the ensuing season. Since the outbreak of the war there has been an enormous increase in the productive value of the field crops of Canada. According to a recent estimate of the census bureau the aggregate value of the grain and oilseed field crops in 1913 was \$1,144,636,450. Compared with the crop of 1914 this is an increase of \$50,000,000.

This increase, so far as value is concerned, is satisfactory as well as remarkable, materially contributing, as it has done, to the prosperity of the country. Without it the Dominion could not have had its democratic form of government.

Neither could she have established a national bank, nor could she have half of the imperial government in order to provide payment for war material and products purchased on export account.

On the other hand, however, this favorable development has been largely due to enhanced market prices, the gain in quantity of production being small.

And while value is necessarily a matter of great importance, quantity is equally important, especially in the case of wheat, when in the winning of the war an ample supply of food is essential as an element of military power.

During the four-year period of 1910-13 Canada's annual average production of wheat was 290,000,000 bushels. Last year it was 661,280,000 bushels, or a gain of 171,280,000 bushels, which means a matter for congratulation.

The aggregate marketable value of these wheat crops in 1913 was \$32,285,350, or 171 per cent., while in 1914 it was \$32,350 and \$34,670,000, respectively.

Of the various kinds of grain produced in Canada, the one of greatest interest naturally relates to wheat; in this particular grain last year's yield of 290,000,000 bushels, or an annual average of 1910-13 period of 290,000,000 bushels, or 14.18 per cent., increase over all, while the increase than the average for all grains, yet it pales to insignificance when compared with the general increase that value was \$317,237,000, or 239 per cent., while the year's average quantity over the 1910-13 annual average been one-half that of 1913, but the increase in our allies would be considerably less perturbed regarding the supply of wheat.

Oats, the next grain in order of importance, last year increased over the 1910-13 annual average of \$1,763,800 bushels, or 14.73 per cent., while in value the appreciation was 158,000,000 bushels, or 12.5 per cent.

While in view of the fact that only from 12 to 14 per cent. of the area under cultivation is under cultivation, ample resources are available for increasing production, yet the present situation shows that the great need is more intensive cultivation rather than increased acreage.

In 1913, the next year after the war began, Manitoba's grain production amounted to \$1,167,000,000; last year it amounted to \$2,653,000,000, an increase of 142 per cent., which is an indication of the progress of the whole of Western Canada, where similar to those of Manitoba.

In 1913, the next year after the war began, Manitoba's grain production amounted to \$1,167,000,000; last year it amounted to \$2,653,000,000, an increase of 142 per cent.

In 1913, the banner year of Western Canada, Manitoba's production was valued at \$1,000,000,000; its total production of 1914 is estimated at \$1,800,000,000, or 80 per cent. over that record year. The value of barley, oats, rye, and other cereals, plus oilseeds, rose from \$1,500,000 in 1913 to \$6,000,000 in 1917. Last year \$600,000,000 worth of grain, hay, and buildings to the value of \$2,620,000 were erected by Manitoba farmers.

This is a doctrine the Rev. C. E. James preached persistently, and it seems to be still practising still. Even granting that it may not be possible for wheat production in Canada to attain the standard of 31 to 40 bushels per acre, credited to the British Isles for a given area, well-fed Teutons could be quickly brought to terms. But with the cut-throat competition of the Germans, their population, reduced their waist-line, and increased their fighting strength.

They have waged war on short rations and have amazed the world by the number of men they have sent to the battle-hunter who would not rather tackle a fat and surfeited hon than a lean and gaunt. They have won with unstruck beer and sausages which might have been more easily vanquished.

While the British have hitherto been beaten by the Germans, Germany which has defied the world these three years past, must be effective must be real starvation and not merely a cutting off of surplus food. The German soldier is a more efficient individual than the rest of the Marquis de Sade, and he is more inclined to minimize his wants than to fight.

The food situation today threatens to imperil the success of our arms, and any means that can be devised to meet this emergency are of great importance.

Characteristic Britons

Glasgow had undertaken the erection of new buildings for a British industrial school, and had completed in full by March 11 to March 22, Prolonged frost blocked progress on the building, however, and the date has been advanced to May 6.

Old London, despite its air raids and its shellings, has been as spry as ever since March 11 as regards its work.

No doubt the British people find this war a beauty annoyance, but industrial fairs are necessary, and, rest assured, must have them—Ottawa Journal.

Canada's Trade

The last trade return shows that Canada's total trade has increased from \$1,024,000,000 in 1913 to \$2,024,000,000 in 1917. Export trade has increased threefold, and import trade has risen to \$400,000,000 in 1913 and \$1,200,000,000 in 1917. In the year prior to the war, Canada's exports totalled \$926,000,000; last year the total clearings amounted to \$12,500,000, an increase of more than three billions.

Mr. McPherson's maid was leaving. "How shall I word this recommendation, Mary?" her mistress asked. "You know I am to touch upon incense the tea was sold her; while as far as I am concerned, I am to say, 'Well, ma'am,'" the maid remarked.

"Suppose you just say I stood this place for four weeks." That will be sufficient, I think."—Vancouver Free Press.

A Western Radical

Hon. Chas. A. Dunning and the Cooperative Movement

The tabloid story of Hon. Chas. A. Dunning, the son of a farmer, born ten years ago, a farmer's boy at Yorkton, a hard-time homesteader, a local politician and enthusiastic cooperative operator; manager of the Saskatchewan Co-operative Credit Company; Provincial Treasurer, and now one of three men in the Dominion who are charged with the enormous responsibility of regulating the national supply and distribution of grain.

He was born in Leicester, Eng. land, the son of a tenant farmer, and came to Canada in 1886, at the age of seventeen. He is a product of the Western Grain Growers movement and the first man to bring the organization of the Grain Growers' Association into the field of politics, and gave him the chance to do bigger things.

He is the son of the Indians.

Government Has Scheme to Increase Production of Grain and Livestock

Announcement was made by Hon. A. M. Meighen, minister of interior, of a comprehensive plan for grain and livestock production in Western Canada by the utilization of the resources of the prairie farm, north of Yorkton, and gave him the chance to do bigger things.

W. R. Dunning, president of Indian agencies, South Saskatchewan Inspectorate, has been appointed a member of the committee to increase the production of grain and livestock.

Under the scheme of the government, the Indians will make

the country of its adoption as much as others do, and these three provinces will be the chief source of wealth which the great war will bring to the Indians.

It was at Beaverville, Saskatchewan, twenty-five miles from the railhead, that W. R. Dunning first met the Indians and their leaders.

His advent into the country coincided with the establishment by W. R. Dunning of the other grain growers at Yorkton, Head of their first association.

His own efforts, and the support of the Indians and the Indians' friends, were instrumental in the formation of the first association of grain growers.

Under the leadership of W. R. Dunning, the Indians have been making good to losses from the railroads.

Under the provisions of the war measure, the value of grain and livestock on the reserves will be advanced from the war appropriations to the department of agriculture, machinery and instruments, live stock and seed, wire, and for rent.

Proposed to refund this amount to the war appropriation from revenue derived from the sale of grain and livestock on the reserves.

Mr. Dunning is authorized to organize a committee to increase the production of grain and livestock on the reserves.

He is the son of the Indians.

Under the scheme of the Indians,

the Indians will make the country of its adoption as much as others do, and these three provinces will be the chief source of wealth which the great war will bring to the Indians.

Income Tax Forms Are now available

Returns must be filed on or before 31st March

THE Dominion Income War Tax Act requires you to fill in one or more of the five special Forms provided before 31st March, 1918. In order to assist the public to understand just what is required of them, information on each Form is given below. Read carefully, then get three copies of the form that fits your case and fill them in. Answer all questions fully and accurately. Fill in your name and statement of income, a penalty of \$10,000 or six months' imprisonment, or both, is imposed.

Individuals.—All persons unmarried, and all widows or widowers without dependent children; whose income is \$1500 or more, must fill in Form T1. All other persons whose income is \$3000 or more, use the same Form. Where any income is derived from dividends, bank accounts received by mail, etc., add up the amount and enter it on Form T1, and mark on page 4. Partnerships, as such need not return, but the individuals forming the partnerships must.

Corporations and Joint Stock Companies, no matter how created or organized, shall pay the normal tax on income exceeding \$3000. Use Form T2 giving particulars of income. Also attach a financial statement. Under Deductions, show in detail amounts paid to Patriotic Fund and other patriotic funds, and to the Canadian War Fund.

Trustees, Executors, Administrators of Estates and Assignees use Form T3. Full particulars of the distribution of income from all estates handed must be shown as well as details of amounts distributed. A separate Form must be filled in for each estate.

Employers must use Form T4 to give names and amounts of salaries, bonuses, commissions and other remunerations paid to all employees during 1917 where such remuneration amounted in the aggregate to \$10,000 or over.

Corporation Lists of Shareholders.—On Form T5 corporations shall give a statement of all bondholders, and dividends paid to Shareholders residing in Canada during 1917 stating to whom paid, and the amount.

Figures in every case are to cover 1917 income—all forms must be filed by 31st March. For neglect, a fine of \$100 for each day of default may be imposed.

In the event of Form T1, T2, T3, or T4 being lost, file the other two, with the Inspector of Taxation for your District. In the case of T4 and T5, keep one copy and file the other two, with the Commissioner of Taxation, Dept. of Finance, Ottawa.

Forms may be obtained from the District Inspectors of Taxation and from the Post-masters at all leading centres.

Postage must be paid on all letters and documents forwarded by mail as Inspector of Taxation.

Department of Finance,
Ottawa, Canada

INSPECTOR OF TAXATION—

THOBURN ALLAN, Customs Building, Calgary, Alta.

Local and General

One general tax sale from one part of the province to the other, in every city, town and municipality in Alberta, is planned for an early date in 1918, in a bill introduced into the provincial legislature. The tax sale will be upon property upon which 1917 taxes have not been paid. If a ratepayer has arrears, including 1916 taxes, and does not pay 1917 taxes, the tax sale will include all arrears. The tax sale is obligatory.

Mass will be celebrated at the church of the Sacred Heart, Selz, on Sunday next, March 24th, at ten o'clock, and at St. Michael's, Bow Island, on Easter Sunday, March 31st, at 10:30 a.m.

A very enjoyable party was given by Mr. and Mrs. W. J. Oliver, of their residence on Monday evening, last. Cards, music and refreshments made up the evening's programme, and they were all much enjoyed by the large number present.

Zion Lutheran Church service on Easter Sunday, March 31st, at three p.m., in the Presbyterian Church, Ferlie Plains Lutheran Church in the Ferlie Plains schoolhouse the same day at seven p.m.—N. R. Braa pasto.

Easter services at All Saints' church will be—Good Friday 3 p.m. Easter Sunday 10 a.m. and 7:30 p.m.

It is said that an evangelist recently told the people of a neighboring town that if they wished to see the newspaper man converted, the immediate payment of their back subscriptions was the first step to be taken towards the desired end. That's a good practical suggestion. When a man walks into a printing office and plunks down the cash for ten or fifteen back year subscription it makes a profound impression on the editor.

A reported scarcity of farm help has apparently induced some with the idea that wages are going to be unusually high. The farmer, however, will not pay an exorbitant fee for hired help, and the latter may as well take this to heart now as later on. As far as the Review can learn it is the general opinion that between fifty and sixty dollars will be the prevailing wage. Sooner than pay many of our farmers will get along as best they can with the help of their neighbors. Indeed, in some districts arrangements have already been completed for work to be done on a cooperative basis, and it is just possible that a great deal of the work in this district will be done this year without extra help at all.

A beginners class will be commenced in the Primary Department of the School, Tuesday, April 2nd. Parents, having children of school age (six years), should endeavor to have them begin promptly.

A meeting of the Quarterly Official Board of the United Church was held in the Church on Thursday, March 7th. There was a good attendance and much business was discussed. Rev. A. D. Richard was present and brought to the attention of the meeting several matters of importance. He expressed himself as greatly pleased with the spirit of unity prevailing and with the prospects of the church's work in this town.

On Sunday, March 10th, at the United Church, a very interesting report of the recent Social Service Congress at Calgary was given by the local delegates. Rev. N. T. R. Braa and Mr. Pollett.

Mr. Braa gave the gist of what had been said and done in respect to law enforcement, gambling, child welfare, the care of delinquent and mental defectives, venereal diseases, etc.

Mr. Pollett who spoke briefly, emphasized the importance of the citizens, throughout the provinces co-operating in the matter of law enforcement. The whole service was exceedingly helpful and instructive and the congregation manifested a live interest in these important subjects.

Remember the special services which will be held in the United Church commencing Sunday, March 31st, conducted by Evangelist Barton.

Formaldehyde and Styrene at the Bow Island Drug & Stationery Co. store.

The provincial legislature has asked the Dominion government to remove the duty upon agricultural machinery during war time, and to set a minimum price upon grain for this year and next. Both requests are reasonable and necessary. The government would do more to increase production next year by taking such action as it could in any other action.

The resolutions were brought into the house by the minister of agriculture, and seconded by the leader of the opposition. There is nothing of a party nature about it. The western farmers realize the importance of the legislation, and in this way their representatives are asking for relief.

The government has removed the duty upon tractors of the cheaper kind. That is good enough as far as it goes, but thousands of farmers do not use tractors and will not take advantage of the opportunity of the government, but all do use other agricultural machinery and are prepared to buy it in order to plan for greater production. If the duty is removed and the price of grain fixed for another year the cause of increased production will be well served.

Farmers? Get your Formaldehyde and Styrene at the Bow Island Drug & Stationery Co. store. Low cost prices.

The change in the Municipal act giving women the same rights of voting as men to elect office that their husbands have, which was practically decided upon at the legislative committee in Edmonton last week, is an important one, which will change conditions very greatly.

It is right. By the new Dower act which has been introduced to the legislature, the wife has a share in the property of her husband, even though she does not appear on the assessment roll, she has a large share in the partnership. She should enjoy all the rights.

In an article on war gardens in "The Woman's Home Companion" appears this call to arms—or to-hos:

"To make a garden this spring and summer is truly a war necessity as well as a patriotic duty. Privileges, the efforts of the small gardener are going to be of still greater importance than they were last year; actually names still creation, and we face to face with a situation that stirs every instinct of self-preservation as well as the nobler impulses of humanity. Let me urge, instead, that this is no exaggeration but truly the truth."

"Look to the garden implements now; get everything ready for use so that when the time comes to use them there may be not an instant's delay."

A dance will be given under the auspices of Golden Link (Releah) Lodge No. 15, L.O.O.F., on Monday, April 1st, in the Oldfellows' Hall, Bow Island, to aid the Albertans Home for Widows, Wives and Families of Soldiers. Tickets 50¢. Bow Island Red Cross will serve refreshments.

T. H. Walker, trustee of Posty-Mile, returned on Saturday from a trip to Florida. Mrs. Walker will remain here visiting friends at Moose Jaw for a time.

J. M. Gibbons of Melch has been gazetted a commandeur to administer affidavits.

T. H. Bladon has been having an interview this week at Medicine Hat with Mr. Allan, the Income Tax Commissioner, and will be glad to give anyone the information resulting from the interview.

Bow Island Red Cross shipped to-day the following articles: 40 b.c.s., two dressing jackets, 140 binders, 38 pairs of socks, 100 pairs of garters, seven coat coats, 40 slings, 170 shirts, nine m.u. bandages, 18 amp. bottles, four pairs bed socks, eight amp. stockings, one shirt, 40 pairs socks.

Dr. E. R. Sawyer, dentist, of Medicine Hat, will be at Bow Island on the second and fourth Saturday in each month for the practice of his profession.—Adv.

Town Council

A meeting of the Town Council was held in the Council Chamber on Friday evening last. Those present included the Mayor (S. G. Jamieson), Councillors Duhame, Agar, Oliver and Bratton.

The following accounts were read: Beattie's garage \$12.45 A. Roche 31.95 Medicine Hat News 47.95 Bow Island Review 4.50 Telephone45 Expenses in connection with gas lease 22.85

The accounts were ordered paid if found correct.

A requisition from the School Board for \$1500 was granted.

The secretary reported that he had filed application for gas rights on the balance of sub-division 12; sec. 4:11:11 for the town.

A communication was received from the Department of the Interior relative to the purchase of the land south of C. P. R. track, and stating that it comprised 16,421 acres.

It was decided to accept the offer and a cheque was authorized to be issued in payment of same.

The school estimates were submitted for the year amounting to \$7286 and were ordered to be placed on file.

The secretary reported that the School Board had made a request for a six-foot sidewalk from the end of the present walk to the new school, and also in regard to piping for gas.

With regard to the tax rate, the collector now reported that the consent of the Minister had been obtained, and after some discussion it was decided to hold the sale on Saturday, April 20th.

A curfew by-law was then introduced and after receiving its third reading was put to the vote. Councillors Agar, Oliver and Bratton voting for, the Mayor and Councillor Duhame voting against.

It was then decided to ring the fire bell at nine o'clock every evening giving two strokes, and that a notice be inserted in the Review informing the residents of the fact.

The council now took up the matter of the town horse with its equipment, and after some discussion they decided to sell it by auction on Saturday, March 30th.

The gas superintendent, H. R. Cook, submitted a report relative to some gas changes within the town, and it was decided to hand it over to the committee to ascertain the approximate cost.

The matter of enforcing the dog by-law was then introduced, and it was decided to allow dog owners ten days to pay up.

The council then adjourned.

Bow Island Board of Trade

A large and thoroughly representative body of the citizens was present at the meeting of the Board of Trade on Monday evening of last week.

A. F. Werts, president, was in the chair, and in the absence of the secretary, W. J. Oliver fulfilled the duties pertaining to that office.

The principal business of the evening was the discussion relative to a municipal hospital.

F. J. Henderson, reeve of the Rural Municipality of Bow Island, gave the meeting a synopsis of what took place at the convention at Edmonton recently. He said after the passing of the Municipal Hospital Act the government discovered that it was unworkable, and consequently some alterations were made. The Minister of Municipal Affairs now has the power to map out hospital districts, prepare plans and specifications, and advise all matters connected with the construction of hospital buildings. Upon a petition being sent in by the Council of a municipality, or of twenty-five electors, the Minister may appoint a hospital board.

All the money necessary for construction of the hospital will be raised as provided for by the various Acts governing municipalities. In no event, however, can the amount raised an-

nually be higher than two mills in the dollar in municipalities where taxes are levied upon a valuation basis, or two cents per acre in municipalities where taxes are levied on an acreage basis. Mr. Henderson stated that a hospital consisting of twenty rooms, exclusive of living rooms, would cost in the neighborhood of \$20,000. The public wards would be free to all taxpayers. The government would pay about one-third the cost of each patient.

Eventually, a motion was passed appointing F. J. Henderson, A. F. Werts and S. G. Jamieson a committee to go into the matter still further.

The subject of town gardening was then taken up. Messrs. W. P. Cotton, Rev. Bishop, W. J. Oliver and others, including Madam Paterson and Oliver, each having something to say in its favor.

A committee of three was appointed to go into the matter.

The meeting then adjourned.

THE STANDARD BANK OF CANADA

HEAD OFFICE - TORONTO

cause which has ever engaged the attention of mankind.

The call upon the fortunes of the people of Canada is to take the form of a graduated tax on all incomes of \$1,500 and over enjoyed by all unmarried persons, or widows and widowers without dependent children, and of \$3,000 and over, enjoyed by all other persons, as well as all corporations and joint stock companies.

The Department of Finance is now calling for the filing of the necessary forms for the filling of the necessary tax law shall have been passed on the statute books. The growing demands made upon Canada, as the result of the furies of war, engaged in the life and death battle with the forces of barbarism, and the necessity of distributing the burden as equitably as possible, made the imposition of a tax based upon ability to pay, most suitable.

All the great nations engaged in the conflict have found it necessary to make the income tax one of their principal sources of revenue. Among the more striking evidences of the will to win in these times of sacrifice, is the spirit with which the people of Great Britain—upon whose shoulders rests the major portion of the war's financial burden—are going about the work of supplying the sinews of war. The people of France and the United States are as cheerfully doing their part and are in a forcible conclusion that this people of Canada, already emured to sacrifice, will make of the income tax an opportunity to serve the holiest

The Alberta Loan & Realty Co. is a m.e. concern recently formed in Burdett and has opened an office in A.G. Rygg's building near the C.P.R. Depot. Farm lands, we understand, will be its specialty.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS.

THE sole head of a family, or any individual over 21 years old, may homestead quarter-sections of available Dominion land, in Manitoba and Saskatchewan. An applicant must appear in person at the Dominion Lands Agency or Sub-Agency of the town or city in which he proposes to make his home. Judicial election right to play a major role in the conflict, will respond to this latest call in the spirit of quiet patriotism.

Burdett.

A. Hamilton returned from the coast on Wednesday. Mrs. Hamilton, who was ill, remained at home, but is now up and about again. She is much improved in health, will remain at Vancouver for a month or two, where attended by her sister she will no doubt continue to gain.

Mr. Hamilton will probably return there as soon as a few business matters are attended to.

The Ford Saves the Hay and Oats the Horses Eat

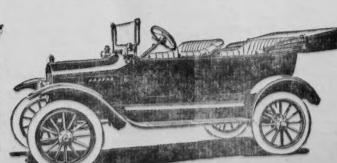

IT has been estimated that five acres of land are required to maintain one horse for a year, and that the same acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced this autumn.

A Ford car also gives the farmer a week or more of valuable time each year which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

Good Cheer S.D.

Mr. Groundhog has made good for once if he never does again, as his six weeks are about up we begin to look for milder weather which will be much appreciated.

A Hard Time and St. Patrick Dance is to be given at our school house the 15th. The dances given this season have been well attended, which shows a good social feeling in the community.

Mr. Madore has returned from near Innisfail, where he has purchased a farm and intends to move in the near future. The best wishes of his friends and neighbors go with him.

The farmers are busy cleaning seed grain and a large acreage is predicted in the district.

We understand that Mr. Little who purchased the Madore farm, will build an addition to the house and move in at an early date. The neighbors extend a hearty welcome.

Mr. Isaac passed through the neighborhood with loads of hay, purchased from Mr. Warner, Tuesday.

Mr. Art Lindquist were visitors at the Madore home Sunday evening.

Mr. Reginald and wife spent Sunday at Mr. Currie's.

Mr. Allen Depew and Miss Frankie York were in the vicinity Wednesday, and many business call on our secretary Mrs. Pease. Miss York arranging to commence our school on the 18th of March. She also called on Mrs. Currie and made arrangements to board with her.

Art Lindquist is preparing for the hot weather by putting up ice this week.

Charles McNaughton, the Winnifred stock buyer, was in the vicinity the first of the week and purchased some hogs from Mr. Stengel.

Mr. Ben Simpson, who has been sound bound with his Ford car, in the Flowering Valley neighborhood, returned home Monday evening.

As the farming season is near at hand we understand John Briggeman made his farewell trip to Valley Sunday.

Wedding.

A very happy event took place at noon on Wednesday, March 20th, at the home of Mr. Harry A. Umber, north-east of Winnifred, when Mr. Umber's second daughter, Margaret Ruth, was united in marriage to Mr. Wilbur Hanegan of Winnifred. The groom was supported by Mr. Walter Begg, and the bride's sister, Mrs. Walter Begg, acted as bridesmaid.
